INDEX TO VOLUME 22 OF THE CREATION RESEARCH SOCIETY QUARTERLY

The subscription year for the Creation Research Society Quarterly begins with issue Number 1 in June and continues through publication of the other three Quarterlies which appear in September, December, and March.
In Volume 22, Number 1 contained pages 1 to 52 inclusive; Number 2, pages 53 to 100, Number 3 pages 101 to 152, and Number 4 pages 153 to 208.
All pages of the Quarterly have been numbered consecutively; hence only the beginning page number is provided for each reference.
Items in Panorama of Science are listed alphabetically, according to the contributor, in a separate section. Book reviews and letters to editor are listed at the end of the index, in separate sections according to title.

QUOTE

Who killed excellence? Behavioral psychology did. Why? Because it is based on a lie: that man is an animal, without mind or soul, and can be taught as an animal. And that concept is based on an even greater lie: that there is no God, no Creator.

Blumenfeld, S. L. 1985. Who Killed Excellence? *Imprimis* 14(9):5. Hillsdale, MI 49242.
